

# 瘤腺葉下珠 (Ceylon Myrtle)

## *Phyllanthus myrtifolius*

常綠灌木，原生於斯里蘭卡。生長出柔軟及懸垂的葉叢及在夏季開粉紅色花。因其形態特別及容易打理而常用於園林設計之中，例如圍邊設計。

Ceylon Myrtle is an evergreen shrub which is native to Sri Lanka. It grows soft hanging foliage and good draper, blooms clusters of small pink flowers in summer. Owing to its special growth form and ease of care, it is commonly adopted in landscaping design such as border design of a planter.
