

豬腸豆 (Golden Shower Tree)

Cassia fistula

常落葉喬木，原生於印度次大陸地區，可生長至15米高。葉片排列為羽狀複葉，夏季開黃花並在秋季結果。豬腸豆的花朵是懸垂的黃色花串，於花期中佈滿整個樹冠，因而常被用於市區綠化的觀賞樹種。其果實為長條狀的黑色莢果。

Golden Shower Tree is a deciduous tree species native to Indian subcontinent. It can grow up to 15 metres. It has pinnate leaves, and bears yellow flowers in summer and fruits in autumn. The flowers are golden yellow, and pendulous, hanging in long clusters and bloom abundantly over tree crown. Hence, Golden Shower Tree is a common ornamental tree species in urban greening. Its fruits are long, terete, black pods.

名稱 Common Name	豬腸豆 Golden Shower Tree
品種名稱 Botanical Name	<i>Cassia fistula</i>
