

山茶 (Japanese Camellia)

Camellia Japonica

山茶是常綠灌木，原生在中國及日本一帶，在冬季開白色、粉紅色到深紅色花朵。山茶主要為觀賞用品種，與主要為製茶葉用的茶(*Camellia sinensis*)同科，兩者的葉緣皆為鋸齒狀。

Japanese camellia is an evergreen shrub which is native to China and Japan. It blooms in winter with red, pink or white flower. Japanese Camellia is an ornamental plant which belongs to the same family as Tea (*Camellia sinensis*), mainly for tea production. Both are toothed leaf margin.

名稱 Common Name	山茶 Japanese Camellia
品種名稱 Botanical Name	<i>Camellia Japonica</i>
科 Family	山茶科 Theaceae
花期 Flowering Period	一月至三月 January to March
果期 Fruiting Period	九月至十月 September to October
校園分佈位置 Where to find in CityU	中國花園、近桃源樓、德智苑及學生宿舍 Chinese Garden, near To Yuen Building, Tak Chee Yuen and Student Residence
