

洋金鳳 (Parado Spride)

Caesalpinia pulcherrima

常綠灌木，原生於西印度群島。全年都會開出燦爛的黃紅色花，會結出莢果。洋金鳳與香港常見的鳳凰木有很多相似之處，其葉片、花朵及果實形態上都十分相似，兩者皆屬蘇木科。

Parado Spride is an evergreen shrub which is native to West Indies. It bears attractive yellow and red flowers all year round and produces pod fruits. Parado Spride and flame tree (*Delonix regia*) share similar leaf arrangement, shape of flowers and fruits. Both belong to *Caesalpinaceae* family.

名稱 Common Name	洋金鳳 Parado Spride
品種名稱 Botanical Name	<i>Caesalpinia pulcherrima</i>
科 Family	蘇木科 Caesalpinaceae
花期 Flowering Period	一月至十二月 January to December
果期 Fruiting Period	一月至十二月 January to December
校園分佈位置 Where to find in CityU	中國花園 Chinese Garden

羽狀複葉
Pinnately compound leaves

花 flowers

莢果 pod fruits
