戰國樂舞——曾侯乙編鐘

Why this 64-piece bell set the most precious music instruments in ancient China?

Why the gigantic Titanic ship sinks shortly less than three hours after struck an iceberg?

...to such an extent that we can connect them to our computers, or automobiles, or airplanes...  
No longer hidden in the garage.  
The price of a transistor is now about the same as one printed newspaper character.

Why the price of a transistor is now about the same price as one printed newspaper character?

Professor C.T. LIU & Professor K.N. TU will tell you more!
