

MGT DEPT BUSINESS LUNCHEON FEB 22nd, 2023

On Feb 22nd, 2023, the CityU Department of Management hosted a unique luncheon event in partnership with the DBA (Doctor of Business Administration) department. The event featured three distinguished guest speakers who were all DBA alumni and industry leaders. Learning from the experiences and wisdom of these corporate stalwarts, our CityU MGT Department students came closer to understanding their career readiness and job-fit. The topic was "Presenting the Best Version of You" and our guest speakers, Dr. Rajeev Chib, Dr. Monica Tang and Dr. David Zhang who were from three different areas of expertise, shared their insights and professional game plans with our MGT students.

Dr. Rajeev Chib, who works as Asia CAO Financial Institutions Sales & Solutions at Citi, talked about the vital role of networking and communication in building a successful career and life. He also emphasized the growing demand for data analytics as a crucial skill for the new generation of workers. Dr. Monica Tang, who serves as Senior IT Manager at HKU, explained how to ace an interview and impress a potential employer. She also offered insights into what managers look for when hiring candidates. Dr. David Zhang, who is Senior Vice President, Group Human Resource at Lee Kum Kee Group, demonstrated how to combine passion and perseverance with skills and competencies to achieve excellence in any job.

The students enjoyed listening to the speakers' inspiring and humorous anecdotes and asked them various questions over a tasty Chinese lunch. They picked up useful tips and techniques on how to showcase their "best version of themselves" in the workplace. They also gained a better sense of their career readiness and job-fit.

The event was possible thanks to the support and leadership of Professor Muammer Ozer, the director of the DBA program at CityU, who conceived this wonderful workshop series. A heartfelt thank you to our amazing DBA speakers for their generosity and wisdom. And a big cheer for all the students who attended this event and made it a great success for the CityU MGT Department.
