

In this issue, we learn about some of the most exciting projects taking place at CityU today. Our scientists are making tremendous progress in the field of advanced materials, making use of our unique Atom Probe Tomography Laboratory. We also hear from faculty and students just back from another adventure on the Extreme Environments programme, which this time took students diving in the Coral Sea and trekking through the jungle in the Solomon Islands. Innovation is ever present, too: check out the wheelchair that helps users in and out of vehicles.

There's much more besides, and so happy reading!

在本期《今日城大》，我們會介紹近期正在進行的一些令人振奮的重要計劃。城大學者運用大學獨有的「原子探針層析技術實驗室」，在先進材料領域取得極大進展。此外，城大部分師生不久前參與「極地環境」計劃歸來。他們遠赴西太平洋珊瑚大三角地區潛水考察，並到所羅門群島叢林遠足探索。創新也無時無處不在，請看城大學生發明的「變形輪椅」，這種輪椅能夠方便殘疾人士上下車。

本期雜誌還有很多豐富有趣的內容。祝開卷愉快！

FEATURES 專題

**12 Super small,
super strong**
全球首創最強鎂合金

**14 Empowering kids in
a digital world**
培育數碼新世代人才

**17 Learning from research,
learning for life**
致力研究 終身學習

**20 Extreme learning in the
Coral Sea**
珊瑚大三角極地探索之旅

**25 One Belt, One Road,
One CityU**
城大在「一帶一路」計劃中發揮
的作用

COLUMNS 專欄

2 NEWS & NOTABLE
城大動態
*AC1 named Yeung Kin Man
Academic Building*
學術樓(一)命名為
「楊建文學術樓」

28 THROUGH THE LENS
光影世界
Magnetic music
以磁奏樂

30 DONOR VOICES
贊助人聲
*Nurturing talent for social
advancement*
培育人才推動社會發展

32 GOWN TO TOWN
校園到社會
Filmmaking • Life
創作 • 人生

34 STUDENT VOICES
學生心聲
From dream to reality
化夢想為行動
