

CityU has performed strongly in recent years, especially by breaking into the world's top 50 universities for the first time, and now is the time to concentrate on sustaining our trajectory by exploring space issues on campus, enhancing our brand and promoting the cross-fertilisation of ideas. This is the central message from our new provost, Professor Alex Jen Kwan-yue, and you can read about his vision for CityU's continued success in this issue's cover story.

In addition, we highlight areas of institutional development such as the launch of a new centre aimed at promoting low-carbon energy, and, along similar themes related to the environment, we investigate new 'wearable' technology that enables users to charge up electronic devices using the body's kinetic energy.

Meanwhile, an interview with one of our donors reveals why local philanthropists are seeing the value in supporting CityU, and we meet one of our alumni making a name for himself in the world of design and interactive installations.

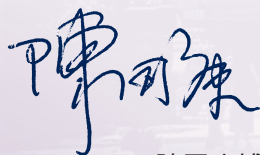

Enjoy!

城大近年表現卓越，尤其是首次躋身世界大學排名榜前50位。現時的焦點，是要延續城大的成功之路，包括增加校園空間、推廣城大品牌、促進創意交流。以上是新任學務副校長任廣禹教授要傳達的要點，讀者可在本期封面專題讀到他為城大發展規劃的長遠藍圖。

本期亦重點報道大學發展的幾個領域，例如成立新中心推廣低碳能源，另一篇與環境相關的文章則介紹一種「可隨身攜帶」的新技術，能夠轉化人體動能為電子產品充電。

此外，本期採訪了一位捐助城大的善長，他的想法反映本地慈善家認同城大的價值而慷慨捐助的原因；同時介紹一位在設計及互動裝置領域嶄露頭角的城大校友。

祝開卷愉快！
