Semester A 2005/06 Examination Arrangements for Influenza Pandemic

In the light of the outbreak of avian flu around the world, City University has formed an Ad Hoc Group on Prevention of Avian Flu. The Ad Hoc Group has formulated a preparedness plan on the examination arrangements to be adopted for the 3 different response levels under the government's influenza pandemic response system. The 3-level response system includes the Alert Response Level, Serious Response Level and Emergency Response Level.

Currently, the "Alert Response Level" has been activated by the HKSAR. Students are advised to measure their body temperature at home before attending any examinations. If your body temperature exceeds 38 or you have symptoms of influenza, please wear a face mask when attending examinations.

The University will take further precautionary measures if the government's influenza pandemic response level is changed. Please visit the '[Examinations](#)' website and the '[Campus Prevention of Avian Flu](#)' website from time to time for updates.
