Remarks:
1. Unspecified elective subjects may include "other languages" at grade E or above.
2. If students take both Mathematics extended modules (M1 - Calculus and Statistics; M2 - Algebra and Calculus), they will be counted as one subject only.
3. Applied Learning subjects are not counted as elective subjects.
4. Students who plan to select Building Services Engineering OR Construction Engineering and Management of JS1091 are advised to study Mathematics extended module(s), and preferably Physics, Combined Science (Physics and Biology) or Combined Science (Physics and Chemistry).
5. **Non-Chinese speaking (NCS) students** who meet one of the following criteria (certification from schools must be provided to JUPAS), "GCE AL/AS Chinese (min. grade E) or GCSE/IGCSE Chinese (min. grade C)" can be accepted in place of HKDSE Chinese, to meet the entrance requirements:
   - the student has learned Chinese Language for less than six years while receiving primary and secondary education; or
   - the student has learned Chinese Language for six years or more in schools, but has been taught an adapted and simpler curriculum not normally applicable to the majority of students in our local schools.

"HKDSE Other languages" cannot normally be used to meet the entrance requirement for Chinese Language. While waivers may be granted at the discretion of the Division of Building Science and Technology, such consideration is only made under special circumstances, on a case-by-case basis. Students are therefore strongly advised to obtain the requisite Chinese qualifications.
