Honorary Chairperson's Message

榮譽主席的話

With the solid foundation laid over the years, City University of Hong Kong (CityU) successfully launched the public phase of its first-ever 10-year comprehensive fundraising campaign, "United, We Soar". The Campaign demonstrates CityU's confidence, passion and sense of unity in pursuing university advancement. I am confident that the unity in the CityU community, including members of the City University of Hong Kong Foundation (CityU Foundation), our donors and friends will continue to help CityU to go on to even greater achievements and soar higher than ever.

During the year, thanks to the staunch support from various sectors of the community, CityU launched two exciting programmes to nurture future leaders – "HK Tech 300", a large-scale flagship innovation and entrepreneurship programme, and "HK TECH Tiger", a suite of exceptional programmes to cater for the advanced learning needs of high-flying students.

With an allocation of HK\$500 million, HK Tech 300 aims to give CityU students, alumni and young researchers a head start on their entrepreneurship journey. Our goal is to establish 300 start-ups within three years, making HK Tech 300 the No. 1 university-based entrepreneurship programme in Asia. It will enable young entrepreneurs to "venture beyond boundaries", translate our research results and intellectual property into practical applications, and contribute to developing a knowledge-based society.

HK TECH Tiger offers students challenging learning experiences through high-quality curricula and engagement in pioneering research under the expert guidance of our world-class faculty. It enables students to pursue excellence, develop their potential, and become future leaders in science and innovation.

I would like to express my deep gratitude for your generosity and for supporting our pursuit of research and academic excellence. Riding on the success and momentum we built during the year, we look forward to your continued partnership to soar for a better tomorrow!

主席的話

2020/2021 has been filled with remarkable milestones and breakthroughs for CityU and the CityU Foundation. I would like to extend my heartfelt thanks to all the Foundation members and friends for your steadfast support, which has enabled us to achieve impressive fundraising results over the past year, helping the University advance in diverse ways.

The commencement of the superstructure work for the Jockey Club One Health Tower and the ground-breaking for the veterinary teaching farm in Lam Tsuen marked a new milestone for the One Health initiative. Our focus on One Health facilitates the high-impact research critically needed for generating better health outcomes, especially during the pandemic. Research breakthroughs from our interdisciplinary researchers in fields as diverse as veterinary medicine, biomedical sciences, data science and building technology help tackle Covid-19 effectively.

CityU is one of the top higher-education institutions in the world, known for innovation, creativity and research, and its scholars have once again been globally recognised. Over 170 faculty members are listed among the top 2% of the world's most highly cited scientists, and CityU ranked at the top in Hong Kong in Citations per Faculty averaged over a five-year period and in granted US patents for the fifth consecutive year. With the mentorship of our world-class faculty and our strong research capabilities, CityU's "HK Tech 300" and "HK TECH Tiger" will prepare our students to become future leaders in the rapidly changing globalised world and help them pursue their dreams.

During the year, the University proudly presented its inaugural Anthem. Themed "Beyond Boundaries", the Anthem conveys the University's belief in integrating teaching and research, and our aspiration to maintain our dynamic trajectory as a leading global university. I hope the Anthem will bring the CityU community and our supporters even closer together in the fresh pursuit of excellence.

Come and join us in our endeavour to venture beyond boundaries and create a better future for our world.

Entering a new phase with One Health 「健康一體化」續上層樓

Commencement of superstructure work marks a new milestone for the Jockey Club One Health Tower 賽馬會健康一體化大樓主工程動工邁向新里程

A ceremony held on 2 March 2021 marked the commencement of the superstructure work for the Jockey Club One Health Tower at CityU. Equipped with first-class facilities, the Tower signifies a new milestone in CityU's unique mission to promote multidisciplinary collaboration to enhance the health of humans, animals and the environment under the One Health paradigm.

CityU obtained enormous support from the community at large, in particular a HK\$500-million donation in 2017 from The Hong Kong Jockey Club Charities Trust, which is the largest single donation ever received by the University. A total of HK\$2.3 billion has been invested in this self-financed state-of-the-art building for enhancing our academic and research capabilities in related fields and building new sports facilities.

The Tower is expected to be completed in 2023. Upon completion, it will provide first-class teaching and research facilities for the Jockey Club College of Veterinary Medicine and Life Sciences and other units at CityU. It will also become a unique hub, contributing to the sustainable development of Hong Kong and the region in the fields of biological science and veterinary medicine.

城大賽馬會健康一體化大樓於2021年3月2日舉行主工程動工典禮，標誌着這幢配備一流設施的大樓工程邁向新里程。在「健康一體化」的概念下，大樓肩負促進人類、動物和環境健康的獨特使命。

城大獲社會人士鼎力支持興建賽馬會健康一體化大樓，其中香港賽馬會慈善信託基金於2017年捐出五億港元。這是城大建校以來獲得的最大一筆單一捐款。這幢自資興建的現代化大樓投資總額高達23億港元，將進一步提升大學在相關領域的教學和研究實力，並提供全新體育設施。

大樓預計於2023年完工，落成後將為城大賽馬會動物醫學及生命科學院和其他部門提供一流的教研設施，亦將成為生物科學及動物醫學領域的獨特樞紐，為香港以至整個地區的永續發展作出貢獻。

Generous donation from Mr Lau Ming-wai to support One Health research initiatives and research on interdisciplinary studies

劉鳴煒先生慷慨捐款支持「健康一體化」研究項目及跨學科研究

CityU received a mega gift from Mr Lau Ming-wai, Chairman of Chinese Estates Holdings Limited, to support the research programme on "One Health Approaches to Antimicrobial Resistant Control and Prevention Technology". The programme focuses on applied research projects conducted by Jockey Club College of Veterinary Medicine and Life Sciences under the One Health paradigm to enhance public health, food safety and animal welfare, targeting solutions to reduce the risk of antimicrobial resistant (AMR) pathogens in humans.

In addition, Mr Lau has also made a donation to CityU for promoting world-class research on interdisciplinary studies in social sciences and law in relation to diversity, uncertainty, change and contentious politics, jointly steered by the Deans of the College of Liberal Arts and Social Sciences and the School of Law at CityU.

城大獲華人置業集團主席劉鳴煒先生巨額捐款，支持其「以健康一體化為本的抗菌素耐藥性控制及預防技術」研究計劃。該計劃涵蓋賽馬會動物醫學及生命科學院從事的健康一體化應用研究項目，提升公共衛生、食物安全及動物福利水平，致力尋求方法減低抗菌素耐藥性病原體對人類構成的風險。

此外，城大亦感謝劉先生的捐款，用作促進聯結社會科學與法律領域的世界級跨學科研究。有關研究由城大人文社會科學院院長及法律學院院長共同主持，議題關乎多樣性、不確定性、轉變及爭議性政治。

城大與中銀香港助長者頤年在家

The Bank of China (Hong Kong) Limited (BOCHK) donated a mega gift to CityU in support of the “HomAge: Home-based Aging for Transformative Community Care” project led by the College of Business. The project promotes the concept of “homebased aging”, while boosting self-care and health of the elderly.

Mrs Ann Kung Yeung Yun-chi, Deputy Chief Executive of BOCHK, said she is delighted that CityU has devoted its professional knowledge and innovative research to the project for the enormous benefit of society. “By setting up a community-based, patient-oriented healthcare system supported by professional teams, the project enables patients to receive comprehensive healthcare services at home. In the long run, we can avoid unnecessary hospitalisations and reduce pressure on the public healthcare system,” she explained.

Professor Matthew Lee Kwok-on, Vice-President (Development and External Relations), deeply appreciates the generous donation from BOCHK. “We believe the donation will empower us to build an integrated people-centered home-based care model and revolutionise the primary care landscape in Hong Kong. The staunch support from BOCHK not only enables our ground-breaking use of big data analytics in elderly care services, but will also have a profound impact on government policy,” he said.

A New Year's gathering for supporters and friends was hosted by the CityU Foundation on 3 March 2021, which was a highly auspicious date. In Chinese, the number 3 represents perpetual growth and vitality, suggesting that infinite possibilities await CityU as it advances and develops.

The Year of the Ox gathering was kicked off with a performance of a Chinese New Year song with erhu and guzheng accompaniment by students from the CityU Chinese Orchestra, followed by a papercutting magic trick performed by President Way Kuo with members of the Board of Governors of the CityU Foundation, in which paper was turned into a traditional New Year fai chun decoration with the "Good Health" blessing.

President Kuo updated guests on the latest developments at CityU, including the University Anthem; the commencement of the superstructure work for the Jockey Club One Health Tower; an international energy forum; the comprehensive capital campaign "United, We Soar"; and the large-scale flagship innovation and entrepreneurship programme, HK Tech 300.

Inaugural anthem embodies CityU's mission and values 城大全新校歌 展示教研理念

The University Anthem, themed "Beyond Boundaries", encourages students, faculty, and staff to pursue excellence, keep our mission firmly in mind, develop cutting-edge curricula and research, promote well-being in Hong Kong and globally, and ensure that the University is "leading the world". "Cultural diversity", as stressed in the lyrics, is integral to fruitful teaching, learning and research. Despite often embracing different views, we respect one another while pooling ideas to sharpen the mind and plough fresh pastures for unexplored knowledge.

CityU continues to make breakthroughs by releasing the English version of the University Anthem *Beyond Boundaries*. This is the global language version in addition to the previously released Chinese versions. Along with showcasing some CityU features, the lyrics serve as encouragement for students to advance beyond boundaries, including academic research, sports development and their future careers. The profound lyrics, written by President Way Kuo, encapsulate the philosophy of knowledge seeking and emphasise the principles upheld by scholars.

城大嶄新推出的校歌以「學研出塵」為主題，寄語學生及學者應追求卓越，心繫世界，專注教學和研究，以知識「引領世界」，為香港以至全球作貢獻。歌詞中的「多元文化」一直是大學致力推動的教研環境，各方見解縱有不同，但能互相尊重，彼此切磋，從而促進創意與思考，昂然邁向未知的知識領域。

城大繼續作出突破，推出英文校歌《Beyond Boundaries》，是較早前中文校歌《學研出塵》的另一國際語言版本，更是再創先河，推出兼具多種語言的校歌。歌詞展現城大教學特色，亦鼓勵學子無論在學術研究、體育路上以至未來事業等各方面，繼續力求突破。饒富深意的歌詞由校長郭位教授親自填寫，傳達出求學路上秉持的哲理，及強調學者具備的風範。

Named Professorship Scheme Addressing the energy crisis through sustainable and clean energy 冠名教授席計劃 以永續潔淨能源應對能源危機

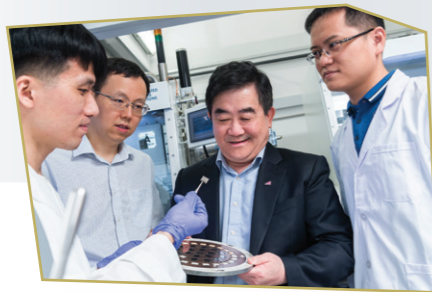

A growing world population requires a vast amount of energy, which inevitably leads to an increase in greenhouse gas emissions. Achieving net-zero carbon emission goals depends strongly on targeted R&D and technological innovations.

Professor Alex Jen Kwan-yue, Lee Shau Kee Chair Professor of Materials Science, and Professor Pan Chin, CLP Power Chair Professor of Nuclear Engineering, are two renowned scientists who are devoted to searching for evolutionary technologies for tackling the severe challenges posed by climate change to ensure a sustainable environment.

To help create affordable clean energy and a sustainable environment, Professor Jen has focused on the potential impact of innovative materials for printable solar cells and energy-saving applications. Professor Jen envisages that in the future, manufacturing these innovative solar cells will be like printing newspapers, with easily scaled up production, facilitating the large-scale deployment of highly efficient materials and solar cells for clean energy applications.

I would like to convey my heartfelt gratitude for Dr Lee Shau-kee's generous support for the Named Professorship Scheme. The tremendous support has contributed significantly to the pursuit of excellence at CityU.

衷心感謝李兆基博士對冠名教授席計劃的慷慨支持，助城大繼續在教學科研上精益求精。

Professor Alex Jen Kwan-yue,
Lee Shau Kee Chair Professor of Materials Science
李兆基講座教授(材料科學) 任廣禹教授

Professor Pan is also contributing to the development of sustainable energy using another approach: nuclear engineering. To address the global energy crisis, Professor Pan has continued his research on nuclear safety technology. In particular, his group is evaluating the use of seawater as an alternative emergency coolant for nuclear power plants to enhance nuclear safety. He believes that use of energy has to become safer and more efficient if we are to avert potentially catastrophic climate change because of excessive carbon emissions.

The two professors have been supported by the Named Professorship Scheme to continue their research on the advancement of Smart City, one of CityU's five overarching themes outlined in the Strategic Plan 2020–2025. Their contribution and fruitful research are significant for the development of energy science for the benefit of the world.

全球人口增長帶來龐大的能源需求，導致溫室氣體排放增加。要實現淨零碳排放的目標，實在有賴針對性的創科研發。

李兆基講座教授(材料科學)任廣禹教授及中華電力講座教授(核子工程)潘欽教授兩位知名科學家，均致力於尋求嶄新技術以應對氣候變化帶來的嚴峻挑戰，確保環境可持續發展。

任教授以製造可負擔的潔淨能源和實現可持續環境為目標，致力研究製造可印刷太陽能電池和節能應用技術的新型材料潛力。任教授期望將來製造這些新型太陽能電池有如印刷報章一樣容易，並可大量生產，把高效能材料和太陽能電池大規模應用於潔淨能源技術中。

中華電力有限公司的支持激勵我繼續發展安全及潔淨的能源研究，讓更多人受惠。

Professor Pan Chin, CLP Power Chair Professor of Nuclear Engineering
中華電力講座教授(核子工程) 潘欽教授

潘教授則從核子工程這方向致力研發永續能源。為應對全球能源危機，潘教授一直從事有關新一代的安全核能發電技術。他的團隊正在評估海水作為核電廠用以替代緊急冷卻水的可能性。他認為能源的使用必須變得更有效率、更安全，才能避免因過量碳排放而引致的災難性氣候變化。

兩位教授在冠名教授席計劃的支持下，繼續從事有關研究大學2020–2025年策略性發展計劃的五大跨學科研究領域之一的「智慧城市」發展。他們的努力和研究成果，對全球能源科學發展影響深遠。
