and instruction time

**Dr. Francesca Del Chicca** Dipl ECVDI recently completed her PhD at the Vetsuisse Faculty (University of Zurich) on "Functional MRI of the normal canine liver", whilst serving there as Senior Clinician at the Clinic of Diagnostic Imaging. Upon graduating from University degli Studi di Parma, Italy, Dr. Del Chicca was awarded grants for assistant positions at the Vetsuisse Faculty in 2002 and at the Ambelside Veterinary Clinic, United Kingdom in 2003, before completing her doctoral thesis on "Antiviral substances against Borna Virus in vitro" at the Vetsuisse pathology department in 2006.

**Dr Myriam Baranger-Ete** graduated from Maisons Alfort in 1998 then completed a year externship at the University of Montreal (Canada), Post Graduate Sonology Course with the University of Sydney and a European Master in Small Animal Veterinary Medicine with the ESAVS. She co-founded and launched Hong Kong Mobile Veterinary Ultrasound Service (HKVUS) 4 years ago, performing only referral Echocardiography and Abdominal Ultrasounds for all Hong Kong veterinarians since then, as well as enjoying teaching veterinarians ultrasound techniques in Asian seminars or overseas courses. She is a Member of the European Society of Veterinary Cardiology and International Veterinary Ultrasound Society.

**Dr Maja Brloznik** graduated at the University of Ljubljana in 2004. She then passed her state exam and entered a postgraduate program of biomedicine at the University of Ljubljana. In 2013 Maja entered the postgraduate program "European Master of Small Animal Veterinary Medicine" at the University of Luxemburg. She has attended more than 90 different specialized veterinary courses mainly focusing on internal medicine, cardiology, diagnostic imaging and cytology. Since 2006 Maja has worked at a busy referral small animal clinic. She also is a consultant at the Small animal clinic at the Veterinary Faculty of the University of Ljubljana. Last January she joined the Hong Kong Mobile Veterinary Ultrasound Service - Diagnostics Division being excited to be performing referral scanning in Asia as well. Maja actively contributed to more than 30 conferences and congresses, the last one being the 15th Congress of the European Veterinary Emergency and Critical Care Society in her hometown in June of 2016.
