<http://www.cityu.edu.hk/jcc/links/20190326CPE.asp>

This course is designed to give the veterinary practitioner a depth understanding of small animal gastrointestinal disease. Major topics include chronic diarrhoea, gastric disease, small intestinal dysbiosis, liver disease, pancreatitis and EPI. Every topic includes case discussions. Participants will be encouraged to analyse, make differential diagnoses and give therapy suggestions based on cases presented.

	26 March 2019 (Day 1)	27 March 2019 (Day 2)
9:00am – 10:00am	work-up and management of chronic diarrhoea – the basics	diagnostics for liver disease
10:10am – 11:10am	work-up and management of chronic diarrhoea – therapeutic trials and definitive work-up	acute hepatic disease
11:30am – 12:30pm	gastric disease	chronic liver disease
1:30pm – 2:30pm	adverse reactions to food	diagnosis of pancreatitis
2:40pm – 3:40pm	small intestinal dysbiosis	management of pancreatitis
4:00pm – 5:00pm	neuroendocrine tumors of the gastrointestinal tract	exocrine pancreatic insufficiency

Dr Jörg M. Steiner, med.vet., Dr.med.vet., PhD, DACVIM, DECVIM-CA, AGAF

Dr. Steiner is a board certified veterinary internist, who has a long track record of outstanding contributions to the field of nutrition and gastroenterology. He currently directs the Gastrointestinal (GI) Laboratory of Texas A&M University and serves as the President of the American College of Veterinary Internal Medicine (Small Animal).
